

Our Mission Statement

The mission of the BAAS DRAGONS organization is to help Asian boys and girls develop physically, psychologically, and socially through sports and athletics. Through our basketball programs, we want to create a safe and healthy environment where our members can learn to strive for excellence, to accept responsibilities, to accept other people, to accept themselves, and to accept both praise and constructive criticism.

Who are we?

The Bay Area Asian Sports (BAAS) Dragons is a 501(c)(3) non-profit organization, whose mission is to provide a structure under which Asian boys and girls can develop physically, psychologically and socially through athletics.

The organization was formed in the year 2000, with seven youth basketball teams (boys and girls). Since then, it has grown to over 250 families and 30 teams, with players ranging from the 2nd to 12th grades, and has quickly become one of the largest Asian basketball organizations in Northern California.

The organization is entirely volunteer-driven, from the Executive Board to the coaches and team managers. It secures gym space for practices, organizes an annual tournament which draws participants from all over the state, forms new teams each year, runs clinics, camps and basketball leagues during the summer, and sponsors social activities and fundraising events.

What are we trying to accomplish?

With the goal of strengthening bonds among our organizational members as well as the surrounding community and other organizations, BAAS is embarking on a long and ambitious journey -- the building of a sports community center.

We envision that this facility will serve as a home base from which past and present players can come together through sports, to mentor each other to reach new heights, and to inspire the next generation of youth.

Families will have a place to continue building community long after their children have finished competing as players. New programs can be introduced and existing programs expanded, to strengthen and widen our network of families.

Our Vision

- ✧ Support BAAS teams
- ✧ Offer community programs, including classes and leagues
- ✧ Encourage continued alumni and parent interaction
- ✧ Provide facilities that may be used by other organizations
- ✧ Expand offerings

How can you help?

We are raising funds now for the land and construction costs of a new sports community center, and we invite you to join us in our journey.

There are several ways you can become involved. We are accepting donations directly into our Building Fund, where named opportunities exist for our major donors. We are also seeking sponsors for the inaugural kick-off of our primary fundraising event: The Challenge.
